Please use the back if you need more space to answer questions or to provide additional information or maps

over

This Ditch hasn't been used for fishing on the upper part since mid to late 1960's because of water run off of chemical sprayed farm ground.

we have the levee running right in front of our house, and every Fall the St. Francis levee District has it sprayed with Round up to kill off the grass, this probably kills off more small game than anything in this area.
